AJRGE Policies and Guidelines

About the Journal

The **African Journal of Reproduction and Gynaecological Endoscopy (AJRGE)** is a peer-reviewed, open-access, online-only journal jointly published by the Association for Fertility and Reproductive Health (AFRH) and the Association of Gynaecological Endoscopy Surgeons (AGES). The journal is published **biannually** and is dedicated to advancing research, clinical practice, and knowledge in reproductive medicine and minimally invasive gynaecological surgery.

Abstracting and Indexing

AJRGE is committed to broad visibility and accessibility. The journal is indexed and/or discoverable through leading academic databases and platforms, including:
Google Scholar, Hinari, ProQuest, EBSCO, CNKI, Baidu Scholar, Wanfang Data, Ex Libris Primo, TDNet, and the **Netherlands ISSN Centre**.
The journal continues to pursue inclusion in additional reputable indexing services to enhance global reach and citation impact.

Journal Ethics

AJRGE adheres to the highest standards of publication ethics and integrity. The journal follows internationally recognized guidelines and best practices as established by:

- Committee on Publication Ethics (COPE)
- International Committee of Medical Journal Editors (ICMJE)
- World Association of Medical Editors (WAME)

Policies on authorship, conflicts of interest, patient consent, plagiarism, and corrections to the scientific record are strictly enforced to maintain credibility and transparency.

Open Access Policy and Licensing

AJRGE operates under a fully **open-access model**, ensuring that all published content is freely available without subscription barriers.

Articles are distributed under the **Creative Commons Attribution–NonCommercial–NoDerivatives 4.0 International License (CC BY-NC-ND 4.0)**. This permits:

- Free access and sharing of content
- Use for non-commercial purposes
- Proper attribution to original authors

Content may not be modified or used to create derivative works.

Digital Archiving and Preservation

To ensure long-term accessibility and preservation of published content, AJRGE supports digital archiving through recognized preservation systems such as **CLOCKSS** and other institutional repositories.

These systems safeguard scholarly content against data loss and ensure continued availability under defined conditions.

Ahead of Print Policy

Articles published online ahead of issue assignment are considered **final and citable** using their **Digital Object Identifier (DOI)**.

Any post-publication changes follow established scholarly correction protocols to preserve the integrity of the scientific record.

Advertisements Policy

AJRGE maintains strict ethical standards regarding advertising:

- Advertisements are clearly distinguished from editorial content
- Placement is independent of editorial decisions
- Advertisers do **not influence** manuscript evaluation or publication
- The Editorial Board retains full approval authority over all advertisements

Scope of the Journal

AJRGE publishes high-quality original research, reviews, and clinical studies covering:

- Reproductive Endocrinology
- Assisted Reproductive Technologies (ART)
- Embryology
- Gynaecological Endoscopy and Minimally Invasive Surgery
- Ultrasonography in Reproductive Medicine
- Ethical, social, and public health issues in reproductive care

Priority is given to studies with strong clinical relevance and impact on patient outcomes.

Publishing Model and Independence

AJRGE is transitioning toward an **independent publishing framework**, strengthening its editorial autonomy, digital infrastructure, and global accessibility. The journal leverages modern manuscript management systems, DOI registration (via Crossref), and international indexing pathways to ensure high visibility, credibility, and sustainability.
